

Mona Vale Public School

Student Use of Digital Devices and Online Services Procedure

Purpose

This procedure guides student use of digital devices and online services at our school.

Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in safe, responsible and respectful ways.

Scope

This procedure provides a consistent framework for the safe, responsible and respectful use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing.

This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

Our School's Approach

Digital devices and online services are an important part of everyday life, shaping the way children and young people learn, communicate, work and play. Learning environments, at school and at home, should support students to develop technological, social and emotional competencies. This support should maximise the benefits and minimise the risks of digital environments, and prepare students for life beyond school.

Student use of digital devices and online services at Mona Vale PS is intended to enhance learning, wellbeing and educational attainment. Digital devices and online services can help students develop the skills needed for digital literacy, creativity, critical thinking, problem solving, interpersonal relationships and collaboration.

Digital devices and online services may form part of the reasonable adjustments provided to a student to enable them to participate in school on the same basis as their peers.

Exemptions

Exemptions to any part of this procedure may apply for some students in some circumstances. Parents and carers can request an exemption and these will be considered on a case-by-case basis and granted when required by law or at the principal's discretion.

Consequences for inappropriate use

If students use digital devices inappropriately, principals have the right to take appropriate action.

Depending on the circumstances, action can include:

- Banning students from using digital devices during the course of the school day
- Confiscating digital devices from individual students
- Requiring students to hand in their mobile phones to designated school staff at the beginning of the school day for collection when students go home
- Applying student disciplinary provisions
- Reporting the matter to the police.

In cases of malicious damage or theft of another student's device, existing school processes for damage to schools or another student's property apply.

Contact between students and parents and carers during the school day

Should a student need to make a call during the school day, they must approach the administration office and ask for permission to use the school's phone.

During school hours, parents and carers are expected to only contact their children via the school office.

Students with smart watches will need to place these in their bags at the beginning of the school day and then take them out after the school bell. Teachers will request this as part of the morning routine. It is highly disruptive for students to be engaging with these devices during class time.

Responsibilities and obligations

For students

- Be safe, responsible and respectful users of digital devices and online services, and support their peers to be the same.
- Respect and follow school rules and procedures and the decisions made by staff, knowing that other schools may have different arrangements.
- Communicate respectfully and collaboratively with peers, school staff and the school community and behave in the ways described in the Behaviour Code for Students.
- Students are responsible for the care and maintenance of their devices including data protection and battery charging. Students are to charge their device and leave chargers at home.
- Students are solely responsible for repair and maintenance of their own device. It is not the school's responsibility.

For parents and carers

- Recognise the role they play in educating their children and modelling the behaviours that underpin the safe, responsible and respectful use of digital devices and online services.
- Support implementation of the school procedure, including its approach to resolving issues.
- Take responsibility for their child's use of digital devices and online services at home such as use of online services with age and content restrictions.

- Communicate with school staff and the school community respectfully and collaboratively as outlined in the 2018 School Community Charter.
- Switch off or put their digital devices on silent when at official school functions, during meetings and when assisting in the classroom. You should only take photographs of your child at school events and be mindful of student safety when posting photos online.
- Provide digital devices that meet school specifications where a school is participating in a bring your own device program and complete any related paperwork.
- Student devices are generally not covered by Mona Vale Public School insurance, (exceptional circumstances may apply). When students purchase their device, they may also purchase an optional insurance policy from the supplier of their device or a relevant insurance company. As mobile devices are subject to a higher risk of accidental damage, prior to signing up for an insurance policy, students and their parents/carers should be fully aware of the details and limitations of the policy, including any excess charged for making a claim, and the name of the company that holds the policy.

For the principal and teachers

- Deliver learning experiences that encourage safe, responsible and respectful use of digital devices and online services. This includes:
 - Establishing agreed classroom expectations for using digital devices and online services, in line with this procedure and departmental policy.
 - Identifying strategies to ensure that all students are able to engage in classroom activities including strategies to accommodate students without a digital device.
 - Reading and abiding by the Terms of Service for any online services they use in teaching, including those limiting use by age.
 - Educating students about online privacy, intellectual property, copyright, digital literacy and other online safety related issues.
- Model appropriate use of digital devices and online services in line with departmental policy.
- Respond to and report any breaches and incidents of inappropriate use of digital devices and online services as required by school procedures, departmental policy and any statutory and regulatory requirements. This includes:
 - Reporting the creation, possession or distribution of indecent or offensive material to the Incident Support and Report hotline as required by the Incident Notification and Response Policy and Procedures and consider any mandatory reporting requirements.
 - Working with the department and the Office of the eSafety Commissioner (if necessary) to resolve cases of serious online bullying and image-based abuse.
 - Following the school's behaviour management plan when responding to any incident of inappropriate student behaviour relating to the use of digital devices or online services.
- If feasible and particularly as issues emerge, support parents and carers to understand strategies that promote their children's safe, responsible and respectful use of digital devices and online services.

- Participate in professional development related to appropriate use of digital devices and online services.

For non-teaching staff, volunteers and contractors

- Be aware of the department's policy, this procedure and act in line with the conduct described.
- Report any inappropriate use of digital devices and online services to the principal, school executive or school staff they are working with.

Communicating this procedure to the school community

Students will be informed about this procedure through class teachers and parents/carers.

Parents and carers will be provided a paper copy at Meet the Teacher and this procedure can be accessed electronically via the school's website.

Complaints

If a student, parent or carer has a complaint under this procedure, they should first follow our school's complaint process. If the issue cannot be resolved, please refer to the department's guide for students/ parents/ carers about making a complaint about our schools.

Review

The principal or delegated staff will review this procedure annually.

BRING YOUR OWN DEVICE STUDENT AGREEMENT AT MONA VALE PUBLIC SCHOOL.

Students must read this agreement in the company of an adult unless otherwise excused by the principal. This page is to be signed and returned to the school. By signing at the bottom of this page students agree to the following behaviours:

- I agree that my use of the Department's Internet will be solely for learning.
- I agree to only ever use my own portal/Internet log-in details and never share those or use others.
- I agree to not attempt to hack or bypass any hardware and software security implemented by the Department or my school.
- I agree to not use BYOD to knowingly search for, link to, access or send anything that is:
 - **Offensive**
 - **Pornographic**
 - **Threatening**
 - **Abusive**
 - **Defamatory**
- I agree to report inappropriate behaviour and material to my teacher.
- I agree to stay safe by not giving out my personal information to strangers.
- I understand that my activity on the Internet is recorded and these records may be used in investigations, court proceedings or for other legal reasons.
- I acknowledge that the school cannot be held responsible for any damage to or theft of my device.
- I agree that use of my device during school activities is at the direction of the teacher.
- My device will not be used at non-teaching times such as recess, lunch without the knowledge of my teacher.

Appendix 1: Key terms

Bring your own device is an optional program where parents and carers can provide personal digital devices for use at school. Any decision to adopt a bring your own device program is made by the principal in consultation with a school community. All digital devices used in schools are covered by the *Student Use of Digital Devices and Online Services* policy. Schools retain discretion to determine the specifications of personal devices to be used at school.

Digital citizenship refers to the skills and knowledge a person needs to effectively use digital technologies in a positive way so they can participate in society, communicate with others, and create and consume digital content.

Digital devices are electronic devices that can receive, store, process and share digital information and connect to applications (apps), websites and other online services. They include desktop computers, laptops, tablets, smartwatches, smartphones and other devices.

Digital literacy is the set of social, emotional and technological skills and competencies that people need to understand to use digital devices and online services, and to expand their opportunities for education, employment and social participation, including entertainment.

Educational purpose is any use approved by school staff that supports student learning, wellbeing and educational outcomes.

General capabilities are the broad collection of knowledge, skills, behaviours and dispositions described within the Australian curriculum and NSW syllabus.

Image-based abuse occurs when intimate, nude or sexual images are distributed, or threatened to be distributed, without the consent of those pictured. This includes real, altered and drawn pictures and videos. This is a crime in NSW.

Online bullying involves using technology such as the internet or mobile devices to bully someone. Bullying behaviour has three key features. It involves the intentional misuse of power in a relationship. It is ongoing and repeated, and it involves behaviours that can cause harm. Bullying behaviour can also involve intimidation, victimisation and harassment, including that based on sex, race, religion, disability, or sexual orientation.

Online safety is the safe, responsible and respectful use of digital media, devices, other technology and online services.

Online services are any software, website or application that can gather, process or communicate information. This includes digital classrooms, chat and messaging, online games, virtual reality, social media and other online spaces.

Reasonable adjustment is a measure or action taken to assist a student with disability to participate in education and training on the same basis as other students.

School-related settings include school grounds, school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This connection may exist in situations where: there is discussion about school taking place outside of school hours; a student is wearing their school uniform but is not on school premises; a relationship between parties commenced at school; students are online in digital classrooms; and where online contact has flow on consequences at school and duty of care requires the school to respond once an incident is reported.

School staff refers to school personnel who have some level of responsibility for implementing policy and the school digital devices and online service procedure. This includes principals, senior staff, teachers, non-teaching staff, school administrative staff, volunteers and contracted staff engaged by schools.

Appendix 2: What is safe, responsible and respectful student behaviour?

Be SAFE

- Protect your personal information, including your name, address, school, email address, telephone number, pictures of you and other personal details.
- Only use your own usernames and passwords, and never share them with others.
- Ask a teacher or other responsible adult for help if anyone online asks for your personal information, wants to meet you or offers you money or gifts.
- Let a teacher or other responsible adult know immediately if you find anything online that is suspicious, harmful, inappropriate or makes you uncomfortable.
- Never hack, disable or bypass any hardware or software security, including any virus protection, spam and filter settings.

Be RESPONSIBLE

- Follow all school rules and instructions from school staff, including when using digital devices and online services.
- Take care with the digital devices you use.
 - Make sure the devices you bring to school are fully charged each day and are stored appropriately when not in use.
 - Understand that you and your parents and carers are responsible for any repairs or IT support your personal devices might need.
 - Make sure the devices you bring to school have the latest software installed.
 - Take care with the school-owned devices you share with others, so that other people can use them after you.
- Use online services in responsible and age-appropriate ways.
 - Only use online services in the ways agreed to with your teacher.
 - Only access appropriate content and websites, including when using the school's filtered network and personal, unfiltered networks.
 - Do not use online services to buy or sell things online, to gamble or to do anything that breaks the law.
- Understand that everything done on the school's network is monitored and can be used in investigations, court proceedings or for other legal reasons.

Be RESPECTFUL

- Respect and protect the privacy, safety and wellbeing of others.
- Do not share anyone else's personal information.
- Get permission before you take a photo or video of someone, including from the person and from a teacher.
- Do not harass or bully other students, school staff or anyone, this includes cyberbullying using a digital device or online service.
- Do not send or share messages or content that could cause harm, including things that might be:
 - inappropriate, offensive or abusive;
 - upsetting or embarrassing to another person or group;
 - considered bullying;
 - private or confidential; and/or
 - a virus or other harmful software.

Appendix 3: Specifications required for bring your own devices

Wireless connectivity: Support 2.4GHz and 5GHz.

Operating system: Windows 10, Chrome OS, MacOS and iPadOS.

Battery life: 5 hours minimum.
